

Green Policy

Our goal is to constantly look for ways in which we can improve our green credentials. We aim to reduce our impact on the environment in these main areas.

ENERGY

Reduce fuel usage and wasted miles by planning each weeks journeys and using navigational aids.

Use low energy lighting.

Use lighting only when necessary and utilise natural daylight.

Turn of all non essential equipment when not in use.

Purchase low energy star rated equipment and appliances when replacing existing equipment.

HEALTH

Use only cleaning products that are bio degradable.

Recycle or discard toxic materials through certified schemes.

Minimise use of toxic materials in our day to day operations.

RESOURCES

Purchase materials manufactured with recycled content where possible.

Re-use or recycle all of our incoming packaging materials.

Reduce our paper usage by increasing the use of e-mail and Internet.

Recycle all of our aluminium products.

Purchase products from our nearest suppliers - none of our products come from the far east.

Try to trade with other green businesses.

FUTURE GOALS

To work with and partner as many organisations as possible who can help us achieve our environmental aims.
